# IN THE SUPERIOR COURT OF THE DISTRICT OF COLUMBIA CIVIL DIVISION

MICHAEL E. MANN, PH.D.,

Plaintiff,

v.

RAND SIMBERG & MARK STEYN,

Defendants.

2012 CA 008263 B

Judge Alfred S. Irving, Jr.

#### **VERDICT FORM**

This verdict form has separate sets of questions for each defendant: Set I for Defendant Simberg, and Set II for Defendant Steyn. Each set is divided into two subsections: A, for liability, and B, for damages. The questions require you to determine liability before damages. Begin with question I(A)(1).

WE, THE JURY, in the above action, unanimously find the following:

#### I. Defendant Rand Simberg

- a) "[M]any of the luminaries of the 'climate science' community were shown to have been behaving in a most unscientific manner. Among them were Michael Mann, Professor of Meteorology at Penn State, whom the emails revealed had been engaging in data manipulation to keep the blade on his famous hockey-stick graph, which had become an icon for those determined to reduce human carbon emissions by any means necessary."
- b) Simberg's quotation of the words "Mann has become the posterboy of the corrupt and disgraced climate science echo chamber. No university whitewash investigation will change that simple reality."
- c) "We saw what the university administration was willing to do to cover up heinous crimes, and even let them continue, rather than expose them. Should we suppose, in light of what we now know, they would do any less to hide academic and scientific misconduct, with so much at stake?"
- d) "Mann could be said to be the Jerry Sandusky of climate science, except for instead of molesting children, he has molested and tortured data in the service of politicized science that could have dire economic consequences for the nation and planet."
